📄 ProSensia Internship Report

Name: Hamza Rafique

Week:

Day: 7

Mini Project: Stylish Product Card or Landing Page

Tool Used: HTML & CSS

🔍 Objective:

To implement and demonstrate the use of modern front-end design principles by building a stylish product card or a simple landing page using only HTML and CSS.

📚 Introduction:

As part of the internship training at ProSensia, today's task was to work on a mini project that applies the skills learned so far, including semantic tags, Flexbox, Box Model, and typography. The aim was to create an engaging UI component that could either be a product card or a full landing page layout.

🧱 Tools & Technologies:

- HTML5 for structure

- CSS3 for styling (including Flexbox, fonts, gradients, shadows)

🎯 Task Description:

We were instructed to design either:

- A **Product Card** showcasing a product with an image, title, price, description, and a CTA button.
  OR

- A **Landing Page** highlighting a brand or service, with sections like a hero image, features, testimonials, or contact info.
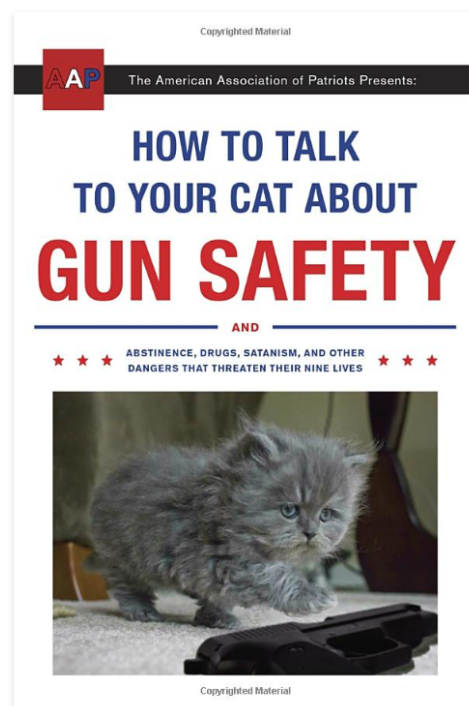

I chose to create a **Stylish Product Card** using modern CSS styling techniques.

🛠️ Key Features Implemented:

- Responsive layout using Flexbox

- Rounded corners, box shadows, and hover effects

- Web-safe fonts and clean typography

- Call-to-action button with transition effects

How to Talk to Your Cat About Gun Safety: And Abstinence, Drugs, Satanism, and Other Dangers That Threaten Their Nine Lives

by Zachary Auburn (Author)

★★★★⯪ ˅

The cats of American are under siege!

Long gone are the good old days when a cat's biggest worries were mean dogs or a bath. Modern cats must confront satanists, online predators, the possibility of needing to survive in a post-apocalyptic wasteland, and countless other threats to their nine lives.

For over four decades, the American Association of Patriots have stood at the vanguard of our country's defense by helping to prepare our nation's cat owners for the difficult conversations they dread having with their pets.

Written in a simple Q&A format, How to Talk to Your Cat About Gun Safety answers crucial questions such as, "What is the right age to talk to my cat about the proper use of firearms?" and "What are the benefits of my cat living a lifestyle of abstinence?" and especially "Why does my cat need to use the internet? Can't he just play with yarn like cats used to do?"

✅ Outcome / Output:

Successfully designed and styled a professional product card that is responsive and visually appealing. This mini project helped strengthen my understanding of layout, spacing, and styling using only HTML and CSS.

📌 Conclusion:

This mini project was an excellent opportunity to put theory into practice. It allowed me to explore design aesthetics, CSS layouts, and front-end implementation, preparing me for larger web projects in the upcoming weeks.
